EQUIPMENT

UPDATED: JANUARY 2011

ORIGINAL BMW MOTORRAD ACCESSORIES

Storage options

Vario panniers

The splashproof Vario panniers come with a patented adjusting mechanism. This enables their volume to be increased from 19 l to 28 l on each side.

Inner bags for Vario panniers

The handy inner bags feature a welded inner, making them particularly waterproof and easier to load and unload the panniers and the topcase. Variable volumes can be achieved, just like on the panniers and the topcase, thanks to all-round zip fasteners.

Topcase 31 l

The splashproof topcase is secured in place on the standard luggage grid. It has a capacity of 31 l and can accommodate a helmet.

Inner bag for the 31 l topcase

The high-quality, water-repellent and sturdy inner bag holds 31 l, makes loading and unloading the topcase easier and keeps its contents dry even in heavy rain.

Carrier for panniers

The solid carrier for Vario panniers keeps cases securely in place and blends in beautifully with the design of the G 650 GS.

Tankbag

The tankbag matches the shape of the tank perfectly. The waterproof main compartment can be expanded from 13 l to 17 l, and the largely waterproof map pocket can also be used to store mobile phones, for example. Other small parts can be stowed in the outer pocket.

Variable insert for the tankbag

With the handy variable insert, you can determine how the interior of your tankbag is to be divided up, ensuring that everything stays in its rightful place, even on hairpin bends.

Soft bag 2, small

With a volume of 31 l and a capacity for a further 5 l, the soft bag offers plenty of additional storage space. It features a waterproof main compartment made from sturdy, easy-care material and can be secured to the luggage grid or the pillion seat with easy-to-operate securing locks.

Luggage roll 2

Sturdy, waterproof luggage roll with stable, removable base structure and a volume of 50 l. Diagonal zip fastener for convenient access and reversible outer pocket with one-sided reflective material.

ORIGINAL BMW MOTORRAD ACCESSORIES

Ergonomics and comfort options

High windshield

Maximum touring comfort no matter how rough the wind or weather, thanks to the high windshield (also available in a tinted version).

High seat

The high, black seat (seat height 820 mm) optimises the angle of the knee for taller riders.

1 piece seat with luggage compartment

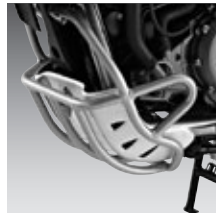

The black 1 piece seat (seat height 780 mm) features a lockable luggage compartment instead of the pillion seat. Even larger items of luggage can be lashed securely onto its non-slip, ribbed surface.

Safety options

Anti-theft alarm system

The system responds to changes in position and jolts with a clearly-audible signal and flashing hazard warning system. Can be conveniently operated by remote control. Also available as a factory fitted option.

Aluminium engine guard and engine protection bar in tubular steel

The sturdy aluminium engine guard protects the engine from stones. The tubular steel engine protection bar protects the engine from small falls, crashes and other unpleasant mishaps.

Hand guard

The single-piece hand guard made from plastic improves the rider's comfort in wind and bad weather, protecting the hands and levers against stones and branches when off road.

Maintenance and technology accessories

Centre stand

The centre stand allows the bike to be easily jacked up, putting it in a secure, space-saving position that makes maintenance work easier too. Also available as special equipment.

Battery charger

Constantly charges the motorcycle battery via the auxiliary power socket; an adapter cable for charging via the battery terminals is also available.

Repair kit for tubeless tyres

Essential on major trips – the complete set for flat tyres.

*1 More detailed information can be obtained from your BMW Motorrad dealer or on the Internet at www.bmw-motorrad.co.uk

*2 Enabled by a specialist workshop, ideally your BMW Motorrad dealer

*3 Installation / operating instructions are available from your BMW Motorrad dealer

*4 Only in combination with the aluminium engine guard
